# Faiza Binte Zaman

faizabintezaman@gmail.com | +8801706643731 | Dhaka, Bangladesh

## PROFESSIONAL SUMMARY

Motivated researcher and data scientist with a strong foundation in machine learning, deep learning, and statistical analysis, built through academic research and hands-on internship experience in biomedical and health data domains. Demonstrated ability to design and implement end-to-end ML pipelines, from data preprocessing and feature engineering to model evaluation and explainability, with a consistent focus on real-world applicability. Experienced in collaborating within distributed research teams, producing publication-quality outputs, and communicating complex analytical findings clearly. Passionate about leveraging data-driven methods to support evidence-based decision-making in public health and clinical research.

## ACADEMIC QUALIFICATION

**American International University-Bangladesh (AIUB)** Jan 2026 – Present
M.Sc. in Computer Science Dhaka, Bangladesh

- **Core Domains:** Advanced Information Architecture, Systems Workflow Analysis, Systems Design.

**American International University-Bangladesh (AIUB)** Jan 2022 – Dec 2025
B.Sc. in Computer Science and Engineering Dhaka, Bangladesh
**CGPA:** 3.89 / 4.00

- **Relevant Coursework:** Database Management Systems (DBMS), Software Engineering, Data Structures, Algorithms, Machine Learning, Statistics.

## WORK EXPERIENCE

**Research Intern**
**Advanced Machine Intelligence Research Lab (AMIR Lab)** Jan 2026 – Present

- Execute complex long-term project milestones independently while working within a highly collaborative, remote, and distributed team environment.
- Formulate structural reports analyzing technical frameworks, presenting regular updates to project coordinators.

**Research Intern**
**Elite Research Lab LLC** July 2025 – October 2025

- Managed the full analytical data processing cycle, transforming raw inputs into structured informational metrics while verifying overall dataset integrity.
- Formatted complex experimental outputs and compiled comprehensive documentation summaries using LaTeX to ensure strict alignment with compliance standards.

**Student Assistant, Intern** July 2025 – October 2025
**Department of Computer Science**
**American International University-Bangladesh (AIUB)**

- Supported students directly with course registration protocols, module selection adjustments, and academic advising issues to optimize departmental communication.
- Maintained confidential departmental records, organized student files systematically, and provided complete operational tracking during university orientations, seminars, and faculty meetings.
- Resolved incoming academic-related queries from students and staff efficiently, serving as an organized informational hub for administrative services.

## ACADEMIC PROJECTS

**Face Recognition Model** *Python, OpenCV, CNN, TensorFlow*

- Built an end-to-end face recognition pipeline: created and labeled a facial image dataset, applied preprocessing techniques, and extracted unique facial features using OpenCV.
- Trained a CNN model on labeled feature sets and validated performance on unseen data; integrated real-time face recognition into live video streams.
- **Skills:** Data collection, data preprocessing, real-time video processing, machine learning model evaluation.

**Cart Crush — Retail Management & Data Tracking System** *C#, SQL Server, .NET Framework*

- Developed a comprehensive management platform integrating complex relational database operations, structured inventory tracking, and secure financial records processing.
- Engineered automated document-control modules including real-time transaction receipt generation and status email notifications.

**Auto VisCheck: Intelligent Visualization System** *Python, Streamlit, Plotly, Pandas*

- Developed an interactive automated visualization web application supporting arbitrary CSV uploads with state-managed missing value detection and five imputation strategies.
- Engineered a multi-tier heuristic algorithm to infer target variables with confidence ratings, paired with a rule-based engine that recommends charts and evaluates misleading visualization risks.
- **Skills:** Exploratory data analysis (EDA), data imputation, heuristic ranking algorithms, interactive dashboard development.

## SCHOLARSHIPS & CERTIFICATIONS

- **Academic Scholarship for Excellence**
- **Dean's List Honors** — Spring 2023–2024, Fall 2023–2024, Spring 2024–2025, Fall 2024–2025
- **IT Essentials — Cisco Certified**

## SKILLS

| | |
|---|---|
| **Programming Languages:** | Python, R, Java, C#, C++, PHP, HTML5, JavaScript, CSS, Assembly Language |
| **Data Science & ML:** | pandas, NumPy, scikit-learn, TensorFlow, OpenCV, Matplotlib, SHAP |
| **Databases & Frameworks:** | SQL Server, MySQL, Oracle SQL, .NET, MVC |
| **Software & Tools:** | LaTeX, MS Excel/Office 365, VS Code, Jupyter Notebook, Cisco Packet Tracer |
| **Core Competencies:** | High Attention to Detail, Independent Remote Workflow Management, Teamwork, Planning |
